- Game development
- Base level knowledge of multiple programming languages

PROFESSIONAL SUMMARY

Ambitious Bachelor of Computer Science undergraduate (expected May 2026) with experience in Web development, game development, and having base level knowledge of multiple programming languages and of Artificial Intelligence. I am a quick learner which I have demonstrated by delivering multiple academic projects under tight deadlines while learning new tools provided to us, I am also committed to expanding my skill set outside of work hours. I am eager to join as a Software Development Intern this summer and contribute to innovative product builds.
